THE SQUARE FORM OF THE SOFA IMPARTS A FEELING OF RELAXATION AND COMFORT. WHILE COMPOSED OF FLAT SURFACES ON THREE SIDES IT EVOLVES INTO A THREE-DIMENSIONAL FORM RICH IN ORGANIC BEAUTY. THE LUXURIOUS BASE OF THICK LEATHER IS ACCENTUATED WITH A BELT DESIGN BRINGING OUT THE FULL BEAUTY OF THE MATERIALS. THE INTERPLAY OF LIGHT AND SHADOW ON THE DELICATE TEXTURE REVEALS ITS QUIET, REFINED FEEL. ALVAR AALTO ONCE SAID, "THE FURNITURE, THE FABRICS, THE COLOR SCHEMES AND THE STRUCTURES CAN BE EARNESTLY AND HAPPILY MADE SO THAT THEY PRODUCE NO CONTRAST TO THE TRAGEDY AND COMEDY OF HUMAN LIFE". AND IN KEEPING WITH HIS PHILOSOPHY OUR SOFA INCORPORATES SOFTNESS INTO ITS VERY DESIGN FOR SATISFYINGLY DEEP COMFORT AND RELAXATION.

CREATED BY THE HANDS OF JAPANESE ARTISANS

Every Ritzwell product encloses a deep thought aimed at generating wellbeing. An accurate design project outlines the shape, while the expert manual skill of our craftsmen transforms it with extreme care into a precious object where flawless execution is crucial. We produce furniture that not only responds to the needs of function and aesthetics, but also to the needs of the soul, which recognises their harmony and perceives the 'memory of the hands' that created every detail. We select only high-quality materials such as solid wood, leather, the softest hides, and most versatile natural fabrics. The metal structures are equipped with precious and resistant finishes made vibrant by a carefully studied colour range. Our main concern is making sure that every piece preserves its beauty season after season, as it acquires a fascinating furubi or 'patina of time' which makes items unique and conceived to be handed down from generation to generation.

QUALITY

Technology and craftsmanship coexist at Ritzwell: technology guarantees the best production methods and long-lasting products, while handcrafted finishings are an expression of the artisan skills found in haute couture workshops. As a result, the brand's appeal continues to grow among architects and interior designers, also because of its vast range of high-end projects for private dwellings and commercial spaces. Shinsaku Miyamoto and Atelier D.O. in their dual role of designers and art directors of the brand have always matched research into style with research into materials, which are must-haves in products of excellence. At the company-cum-workshop every product is a new, fundamental step in the company mission: to disseminate the aesthetic concept of beauty, in keeping with Japanese tradition, and to deliver a perfect example of design that is all about simple harmony, pure equilibrium and an unmistakable style.

ITOSHIMA SEASIDE FACTORY

Itoshima Seaside Factory is set in the heart of a pine forest overlooking the beauty of the Genkai Sea. This is the core of our manufacturing process, focused on hand worked upholstery and the sewing stage of production. In a time when cost and efficiency are commonly prioritized during manufacturing, we, instead, have chosen to value and spare no effort in our reliable creative process. The refined space of the building offers both functionality and a warm atmosphere and is built on a strong belief in the brand concept—that the aesthetic sensitivity and skills of trained craftspeople are cultivated if immersed in pleasant surroundings. Here young artisans earnestly create their unique pieces, making full use of the latest technology as well as of a strict hand-crafting process. Every day is spent in a top-quality and calm atmosphere, where people work and, at the same time, enjoy the scent of the sea carried by wind blowing through the trees, and the sound of waves rolling in on the sandy beach.
